
BRAINBOOST INVITATION

Workshop: Personal Leadership for a Sustainable Future – Including the Immersive VR Experience EARTH FROM SPACE®

As global challenges become increasingly complex, organizations are called upon not only to adapt but to lead the way toward a sustainable future. At ConsilioNexus, we are thrilled to invite you to a special BrainBoost event where Kees Froeling will share insights on how personal leadership can drive sustainable transformation.

This event is a personal invitation to participate live in an exciting BrainBoost, where you actively will experience the effect of 3D.

About Kees Froeling

With over 20 years of experience in marketing, sales, and business development, Kees has been at the forefront of innovation and sustainable change. He co-founded STUDIO.WHY and has played an active role in delivering meaningful transformations for organizations across the globe. Kees is also part of the Global Leadership for Sustainable Development program hosted by the IDG Foundation in Stockholm.

VR Workshop EARTH FROM SPACE®

You will participate in the transformative VR workshop, EARTH FROM SPACE®. This immersive experience offers a rare opportunity to feel the 'Overview Effect'—the awe astronauts experience when viewing Earth from space. You'll gain fresh insights into the state of our planet and leave with renewed motivation to contribute to a sustainable future, both personally and organizationally.

We hope you will join us for this unique opportunity to learn, engage, and contribute to a sustainable future. Please confirm your participation via the link in the email.

*Best regards,
Jens Brabrand*
